

## Ozium® – The Original Air Sanitizer

Germ and odors won't know what hit them. Ozium®, the original air sanitizer, has been the proven leader for over 40 years.

The active ingredients in Ozium cleanse the air with glycolized action. Lighter-than-air particles are dispersed into the air where they linger for 3 to 4 hours, encapsulating airborne bacteria and odors. Ozium effectively sanitizes, deodorizes and leaves a fresh fragrance in the air.

Ozium air sanitizers are guaranteed effective in reducing smoke and odors by attacking airborne bacteria wherever it exists: hospitals, homes, restrooms, food processing areas, retail stores, theaters, schools, factories, hotels, nursing homes, public restrooms, offices, industrial and storage areas. Whether transmitted by air, by animal or by man, Ozium reduces bacterial and viral pathogens making the world a cleaner, safer place.
